

Fall Succession Planting Schedule

Late August

- * Pull spent summer crops
- * Sow Round 1: Lettuce, Spinach, Radish, Arugula
- * Water deeply to help germination

1st Week of September

- * Sow Round 2: More Lettuce & Radish
- * Direct sow Baby Kale
- * Use shade cloth in hot zones

Mid-September

- * Sow Round 3: Last Radishes & Arugula
- * Sow Spinach for overwintering or late harvest
- * Apply mulch to conserve moisture

Late September (Optional, Zone Dependent)

- * Sow overwintering Spinach under row cover
- * Plant cold-hardy greens in containers
